

Clyde Docks Preservation Initiative

Protecting and Promoting the Evolving Maritime Heritage of the Tidal River Clyde

CDPI Associate Membership

Why Become a CDPI Associate Member?

Your Associate membership will support the development of CDPI's key activities as a research, networking and lobbying organisation concerned with the protection and promotion of maritime heritage along the River and Firth of Clyde.

We see heritage in a much broader context than history and museums, which are only a part of the picture. Heritage is a legacy from past traditions as well as what we create now and pass on to future generations. This means looking at issues of contemporary and emergent culture, activity, innovation, new technology and sustainable development.

Your contribution as an individual supporter will enable CDPI to retain its organisational independence (which has been critical to our work so far) and not be influenced by any special corporate interests.

Associate Membership Benefits

- Participation in pre-consultation or similar exercises to help develop CDPI activities
- Participation in certain stakeholder events e.g. workshops, free guided walks, etc
- Full access to the content of our 'members only' newsletters and similar features
- Access to a networking forum looking at issues relating to Clyde maritime heritage

You will also have access to certain CDPI information before it is made publicly available, such as findings of surveys and other research activity we undertake.
